Engagement

Our Story of Engagement

Our story of engagement for each learner at our school Parent communication has been ongoing and remains one of the priority focuses of staff and administration at RDL. We understand that relationships built on trust are contingent on effective ongoing communication. See the [RDL Communication Plan](#) We actively seek parent feedback through teacher weekly email updates and frequent phone calls. The weekly parent newsletter serves to keep parents up to date with ongoing events. Teachers make frequent use of the Remind app to communicate with families. We utilize the RDL's [Facebook](#) page, [Instagram](#), and [Twitter](#) social media accounts We are supported by the RDL school council with ongoing social media communication support through their [feeds](#).

Our student matters team has been doing a fantastic job at engaging with the school community to build leadership capacity and support actionable items. The primary focus for the upcoming years will again be on student internal resiliency. This focus was determined by the team and their review of the RDL SOS-Q (Student Orientation to School Questionnaire) data. With restrictions lifted this year, there will be several student and family engagement opportunities sponsored by Student Matters including dances, school-day activities, and projects. The grade 6 student government has held several spirit events, including spirit days and Halloween costume contests. Christmas concerts, Remembrance Day Assemblies, band activities and engagement events such as movie nights and community BBQs are valuable examples of how the community is welcome and encouraged to be in the school

If you have pressing concerns, please contact the main office.

4. CLASSROOM COMMUNICATION

communication regarding wellbeing. These include technological engagement evenings about web-based security and child safety, Elder engagement to support families and communities with a specific focus on wellbeing, etc. Also, a shift toward a more balanced approach to education for all students including Jr. High by bringing annual hours of courses back into alignment with the Provincial Guide to Education will help to support student wellbeing.	
Strategy 3: Collaborate with and incorporate the expertise of our school’s FSLC to find relevant outside agencies and support, as needed. Ensure that students are regularly engaged in activities to promote mental health and wellness.	

Strategies: Advance Continuum of Supports <i>Strategies are actions taken to achieve priorities and outcomes that are based on best evidence/research and professional judgement</i>	Evaluation <i>Impact of strategies implemented</i>
Strategy 1: LC acts as the facilitator for intervention programming and teacher growth opportunities. Specifically, the LC works to support teacher differentiation practices to enact ILP (Inclusive Learning Plan) strategies and accommodations.	
Strategy 2: Discussions at Division level PLCs regarding intervention strategies for students and when to escalate the strategies across the continuum of supports from Universal to Targeted to Specialized to Complex. When do we access outside supports?	
Strategy 3: Enacting suggestions from student voice from the Student Matter’s Committee, RDL Student Council, and conversations with students will be used to help guide, plan, and facilitate cocurricular and extracurricular events.	

Areas of Strength:

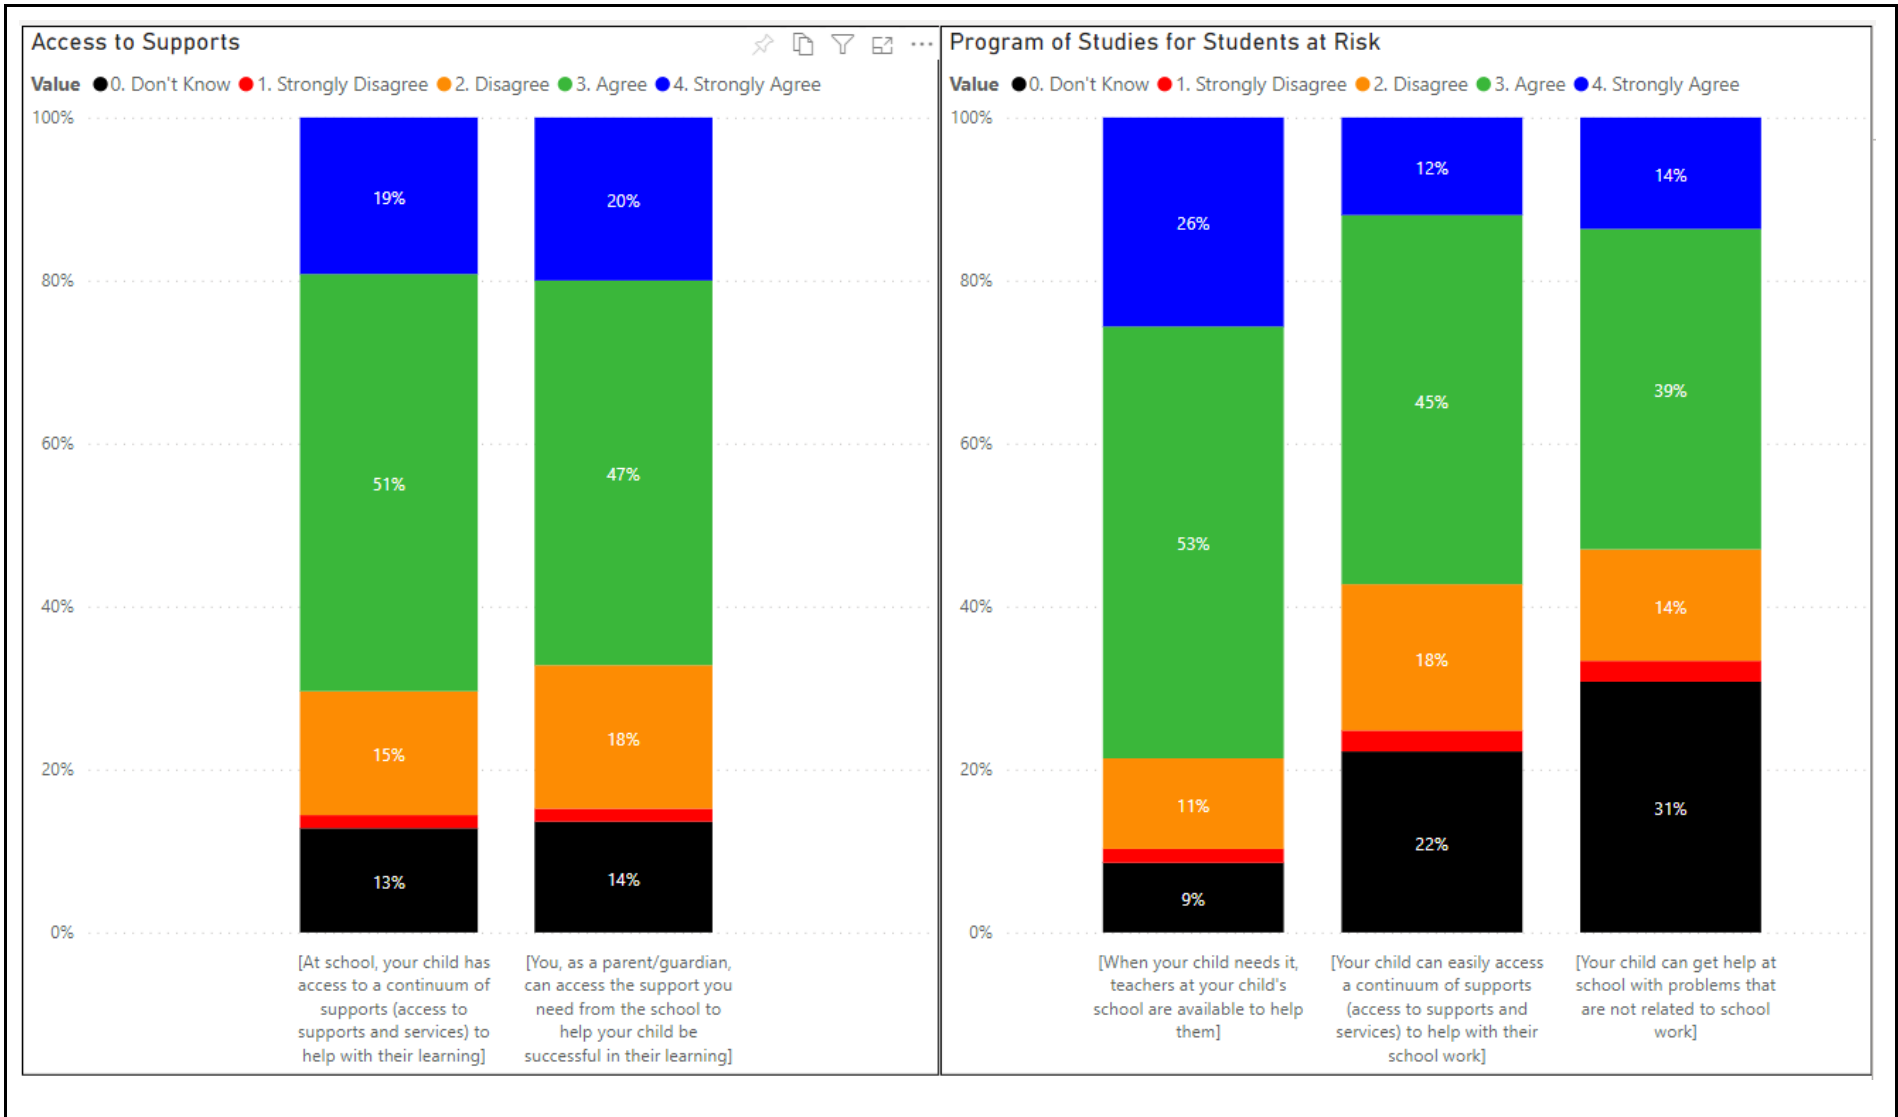

- All indicators suggest that students at RDL feel safe and cared for. Students feel that teachers are their advocates.
- There is a strong and established network of school-based interventions focusing on literacy and numeracy which are aligned with the work of the division. This will continue to evolve and grow over time.

Areas for Growth:

- There appears to be a significant number of parents who feel that they are not aware of support available beyond school and work and the continuum of support available.

Next Steps:

- Continue to improve parent and community communication around student supports and the RDL Continuum of Supports

Strategy: Continue to increase focus on larger tasks that support students:

- To form conceptual understandings,
- To be agents of their own learning,
- To be allowed to live with complex problems over time.

Areas of Strength:

- We have strong scores across the board for flow in Mathematics, ELA, Science, Social Studies, and Arts. Low levels of boredom and apathy in those areas as well.
- Strong scores in the areas of educational quality, program of studies delivery, and citizenship.

Areas for Growth:

- Looking at how few of our students were able to indicate if they are in a state of anxiety, flow, apathy, or boredom in MCL and CTF, demonstrates to us that there is a lack of understanding of what they are engaging in when they are in those spaces. Being more explicit with the purpose behind the activities that they are learning can help bring that to the forefront.
- We will continue to increase the diversity of offerings in CTF and Music and Fine Arts will become larger priorities to create a more balanced approach to learning opportunities.
- Staff learning will be around Competency 5: Foundational Knowledges of First Nations, Métis, and Inuit with a focus on relationality and relationship building.

Next Steps:

- Through professional learning opportunities we will continue to support staff growth

Impact of strategies implemented

Strategy 1: Explicitly focus on TQS competency 5 in site-based professional learning	
Strategy 2: Build relationships with local Elders and Knowledge Keepers	

Areas of Strength:

- As a school we were well above the province in all academic indicators
- Students shared that they feel we are doing well as a school in cultural perspective based on the survey below

Areas for Growth:

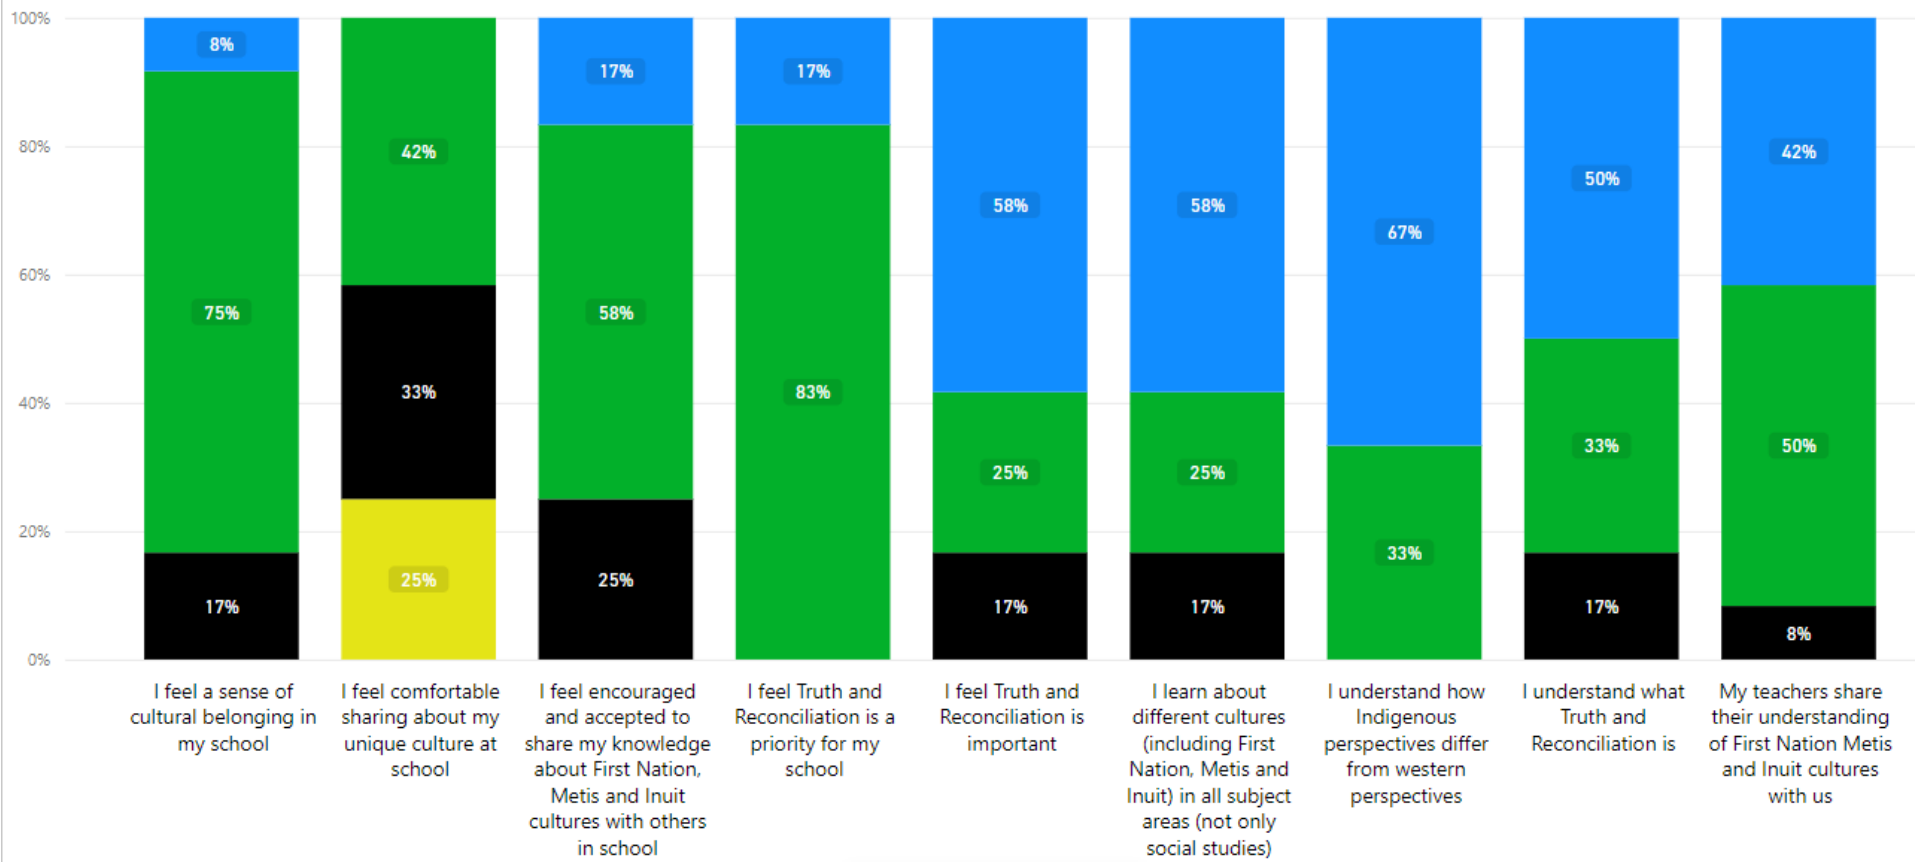

- Utilize current relationships with Elders to continue building staff capacity and confidence in this area

Next Steps:

- Continue to embed TQS competency 5 indicators into lesson planning and design when appropriate. Continue to incorporate texts that shift the priority for the hegemonic cannon toward that of voices that have been overlooked, oppressed, or ignored.

Strategies: Advance excellence in teaching, learning, and leading

Strategies are actions taken to achieve priorities and outcomes that are based on best evidence/research and professional judgement

Evaluation

Impact of strategies implemented

Strategy 1: Explicitly sharing, discussing, and restating the RDL mission and vision. Reiterating how this applies to RDL's specific context and aligns with that of FSD.	
Strategy 2: Strategically embedding PLC time within the timetable so that teachers can have the time needed to work together to focus on student learning and wellbeing.	
Strategy 3: Complete the RDL Student Continuum of Supports. This will be completed collaboratively and will be implemented as the core of all intervention and the utilized as the main guiding points for conversations regarding students in PLC work.	

Areas of Strength:

- Due to changes in the timetable, PLCs are now embedded within the weekly timetable. This change was made after the survey was completed and before we received the data.
- Staff feel that they continue to focus on contextual realities and improving best practices

Areas for Growth:

- All indicators have decreased. This is concerning. Upon digging further into individual questions of which the 5 indicators for the staff professional learning survey were comprised one of the major struggles staff appeared to share was a lack of a localized and contextual continuum of support. That has since been developed and is posted above.
- In consultation with RDL staff, several of them suggested that they were unclear whether that survey was connected to site-based professional learning or divisional professional learning and some indicated that they answered based on a connection to divisional professional learning.

Next Steps:

- The RDL Continuum of Supports (Shown above) is the first document of its type at RDL. It was constructed, edited, and updated collaboratively asynchronously by staff. This document will be updated on an annual basis
- Professional learning days, PLC work, and Staff Meetings will continue to be built around student centered work focusing on:
 - What do we expect students to learn?
 - How will we know if they have learned it?
 - How will we, as a team, respond when students experience difficulty in learning?
 - How will we, as a team, respond when students have already mastered the learning?
 - How can we utilize research to improve our instructional practices?
