What's New

🌿 Garden Update: New Beds Completed! 🌿

We're excited to share that our four new wood framed garden beds are now finished! A big thank you to everyone who contributed to this project. We are especially grateful for the support from our Nutrients for Life grant, which made this possible.

These beds will serve as a fantastic space for students to explore gardening and learn about healthy eating. Stay tuned for more updates in the Spring as we start planting and growing together! 🌱

Library News

This October, we dove into a mix of chilling tales that perfectly captured the spooky season. We explored haunting narratives that wove together themes of identity and family, along with eerie stories that transported us to unsettling worlds. An anthology featuring fresh voices in the genre also made it onto our reading list, ensuring we had plenty of thrills and chills just in time for Halloween!
