

Help Us Spread the Word — Become Our Social Media Superstar!

Are you a social media whiz with a passion for education? We need YOU to help us take our mission to the next level!

The Friends of Foothills Schools Foundation is a CRA registered charity and nonprofit society dedicated to supporting students and schools in our community, and we're looking for some social media superheroes to help us *shine* on Facebook and Instagram!

Whether you're an Instagram influencer in the making or just love scrolling and sharing cool educational content, we'd love to have your help!

Here's What You'll Be Doing:

- **Creating awesome content:** Help us share heartwarming stories, cool educational resources, and exciting events to engage our audience.
- **Growing our community:** Get creative with posts and campaigns to connect with local families, supporters, businesses, and potential donors.
- **Driving engagement:** Interact with followers, answer questions, and build a positive online community.
- **Spreading the word:** Promote our fundraising events, programs, and initiatives in fun, engaging ways that inspire action.

Who We're Looking For:

- Social media savvy volunteers who know how to create posts that grab attention (bonus if you can make them pop with hashtags!)
- Passionate advocates for education who want to make a real impact.
- Folks who are happy to collaborate, be creative, and share fresh ideas with our team.

Why You'll Love It:

- Be part of a mission that's making a real difference in the Foothills School Division community!
- Build your social media portfolio while working on a meaningful cause.
- Flexible and remote — you can help us from anywhere!
- Have fun and work with a passionate, upbeat team!

If you're ready to help us spread the word and make some noise for education, we'd love to hear from you!

Send us a message at hello@foundationemail.com or drop us a DM, and let's chat about how you can get involved.

Let's create something amazing together! #SocialMediaForGood #HelpUsGrow #VolunteerForChange
