

December 3, 2025

Dear Parents and Guardians,

Winter weather has arrived, bringing snow, freezing temperatures, blowing winds, and occasional melting. These conditions can create icy spots around the school grounds, particularly near the sides of the building. Our maintenance team and administration are working diligently to keep these areas as safe as possible.

However, with the changing weather and slippery conditions, we kindly ask everyone to exercise extra caution when walking or driving near the school. Please remind your children to watch their step and use designated walkways whenever possible.

We also want to remind you about our **Safety Patrollers**, who have been learning their new roles and working hard to keep everyone safe. We know the morning rush can be busy, but please **slow down, follow their directions, and help us protect our students** during drop-off and pick-up times.

Finally, please allow **extra time for travel** during winter mornings. Slower speeds and careful driving help keep everyone safe.

Thank you for helping us keep our school community safe during the winter months!
Warm regards,

Jolene Becker
Principal
