THE FSD ASSURANCE ANNUAL SURVEY

To promote that our evidence-informed decision making is reflective of all learners, FSD issues a survey to all families of students in kindergarten to grade 12, asking the exact same questions within the Alberta Education Assurance Measure (AEAM) survey, as well as additional questions to inform the local-societal context. The AEAM is sent annually to families of students in grades 4, 7, and 10.

To dig deeper into this data that celebrates the engagement, support, and success of all learners, **read the AERR at our website.**

LEARNING PATHWAYS FOR ALL

The literacy and numeracy assessments, along with the achievements and excellence of Grade 12 Diploma and Grades 6 and 9 Provincial Achievement Tests (PATs) are key indicators that students of FSD schools are active participants in their own learning, gaining the skills to apply their learning in real-world contexts, and are achieving successful outcomes.

Learning opportunities satisfy the diverse career opportunities and interests of students, demonstrating that FSD remains to be **A Place for All.**
