

## École Joe Clark Parking and Drop off Zones

### Bus Zone, Maintenance, and Emergency Vehicle Access Reminder

We respectfully remind families that the area located **on the west side of the school, directly in front of the kindergarten entrance, is reserved exclusively for FSD buses, maintenance vehicles, and emergency vehicles.**

This area **is not designated for student drop-off or pick-up.** For safety and operational reasons, it must remain clear at all times to ensure unobstructed access for buses and emergency response vehicles. With the arrival of spring, we anticipate **increased use of this space for field trips, maintenance work, and service vehicles,** making it especially important that these lanes remain available.

To support safe and efficient traffic flow, families are asked to use the following **designated alternatives:**

- **Church parking lot** for student drop-off and pick-up
- **Main school entrance** as a *drop-and-go zone only*
- **Parking west of the school near the lake,** where families may enjoy a short walk to start the day

We kindly ask that families **share this information with any family members, caregivers, or others who regularly drop off or pick up students,** to ensure consistent understanding and adherence to these procedures.

We appreciate your cooperation and continued support in maintaining a safe, orderly, and accessible school environment for all members of our community.
