

Strong brains are built by supportive relationships. That means it's up to Moms, Dads, Grandparents, families, daycares, schools, community groups — heck, building brains is up to all of us.

Our Time Together Cookbook will help you and the children you care about build strong brains together.

Happy Cooking, Happy Brain Building!

OUR TIME TOGETHER Cookbook

“ Cooking with kids is a great way to connect and spend quality time together as a family while teaching little ones important healthy eating habits. ”

(Government of Canada, Cooking with Kids)

The Foothills Children’s Wellness Network would like to extend a sincere **THANK YOU** to the community members who submitted recipes for the

Our Time Together Cookbook

Without you this cookbook would not have been possible. Due to the high number of recipes submitted not all recipes could be used. Selecting recipes was not an easy task. Criteria for the recipe selection were: healthy, tasty, simple enough for little helpers, and a balanced number of recipes in each section of the cookbook.

Some of the recipes submitted had healthy modifications made, for example adding in whole grains or reducing the fat, sugar or salt content in the recipe. Each and every recipe was tested and tasted by the Working Group. We hope that we have honored the recipes that were submitted and made the healthiest possible choices for our families to cook together.

We have analyzed every recipe in this cookbook using Dietitians of Canada eaTracker and the AHS Healthy Food Checker so that you can make informed decisions about what to make and feed your family. We hope you find this useful.

Cooking with Kids

At any age, cooking with kids can be fun and easy. If kids get cooking now, chances are they will keep up this good habit as they grow older. Children should start by learning basic cooking skills and build their way up. Use these age-specific guidelines to help the little chef succeed in the kitchen.

Cooking with 2-3 year olds:

Very young children like to explore with their senses of sight, touch, smell, hearing and tasting. They also like to do things on their own. Try letting kids:

- ★ Wash fruits and vegetables in the sink
- ★ Add items to dishes (like chopped tofu to a casserole)
- ★ Smell food, herbs and spices you are using
- ★ Help find ingredients in the fridge or cupboard
- ★ Put paper cups into muffin tins (see Jazzy Goodness Muffins)

Keep in mind, some kids may be happy to watch you cook and talk about what you are doing. An empty pot on the floor with a spoon keeps their hands busy. Be sure to ask lots of questions about what they are making that smells so good!

Cooking with 3-4 year olds:

At this age, children may be more interested in talking than eating! Either way, cooking keeps them interested in food. Try letting kids:

- ★ Remove eggshells from hard-boiled eggs
- ★ Pour from a small pitcher or measuring cup
- ★ Make a simple sandwich or pizza with pre-assembled ingredients
- ★ Describe the colour, taste and shape of food
- ★ Roll cookie or bun dough (see Gingersnaps or Fluffy Buns)

Cooking with 4-6 year olds:

At this age, some kids may show signs of being a picky eater. While the food they prepare might not make it to their fork, try to be patient knowing that cooking is helping them warm up to the idea of trying new foods. Try letting kids:

- ★ Assemble foods: make trail mix or their own yogurt smoothie with toppings you've prepared (see Green Peach Smoothie or Yogurt and Fruit Parfaits)
- ★ Stir ingredients together (like muffins, pancakes, sauces)
- ★ Slice soft-cooked vegetables, soft fruit, cheese or tofu with a plastic knife
- ★ Crack and beat an egg (see Ham and Egg Cups)
- ★ Cook with a friend for a fun play date

Cooking with 6-8 year olds:

At this age, kids can follow simple steps for recipes and are able to share and take turns. Try letting kids:

- ★ Use simple kitchen equipment such as a grater, toaster, blender or can opener after you show them how to do so safely
- ★ Make simple Cinnamon Oatmeal or Mexican Bean Salad
- ★ Toss salad ingredients together with salad dressing
- ★ Invent a fruit salad or smoothie recipe
- ★ Write a list of healthy snacks they like to eat
- ★ Write out a grocery list
- ★ Make a simple breakfast: Breakfast in a Mug or Breakfast Burrito

Cooking with 8-11 year olds:

Kids at this age are more coordinated and able to understand how to use appliances safely. Try letting kids:

- ★ Use a knife with easy-to-cut foods (cooked meats, cheese, tofu, breads)
- ★ Use the microwave with your help (see Chocolate Cake in a Mug)
- ★ Make their own school lunch
- ★ Make Fruit Salad with Honey Lime Dressing to go with dinner
- ★ Use the stove, with supervision, to make basic recipes: Cinnamon French Toast, Pumpkin Pancakes or Alphabet Lentil Soup
- ★ Decide what is needed to balance out a meal so it has food from each food group

Safety rules

- Adult helpers can set the oven to the right temperature, reach for items in high places and explain any part of the recipe that may not make sense.
- Never leave the kitchen while cooking.
- Remember to clean up all your spills on the floor – so someone doesn't slip and fall.
- Check recipes for any foods that you are allergic to.
- Keep all towels away from the stove as they can easily catch on fire.
- Always have dry potholders or oven mitts nearby.
- Cool your hot cooking or baking dishes on a hot pad or a wire rack.
- Always pick up sharp utensils (such as knives or scissors) by the handle.
- Remember to clean up any messes and turn off your stove, oven and any other kitchen equipment after you are done cooking.
- Ask an adult to wash all sharp tools and equipment.

Food safety

- Wash fresh fruit and vegetables with water before eating or preparing them.
- Use two plastic cutting boards – one for fruit and vegetables, and a different one for raw meats.
- Always wash your hands before and after touching raw meats.
- Thaw frozen foods in the refrigerator, in the microwave, or under cold running water, not on the countertop.
- Keep hot foods hot. Raw eggs, fish and meat must be cooked well to kill bacteria.
- Keep cold foods cold. Separate large amounts of leftovers into small, shallow containers to help food cool quickly.

- 1 clove garlic, crushed

2 Tbsp (30 ml) vegetable or canola oil
1/4 cup (60 ml) sugar
1 1/2 cups (375 ml) lukewarm water

2. Put egg, oil, sugar and water in bowl of mixer. Mix well.
3. Add 1st bowl of flour and yeast to mixer. Beat for about 5 mins (the beating makes the buns fluffy).
4. In another bowl mix 1 cup white and 1 cup whole wheat flour with salt. Add to mixer and beat together until mixture begins to form a ball and comes together. You may need to add a few tablespoons more flour or liquid to get a soft dough that comes together and is not too sticky.

Thank you to the Grandparents Committee of the Foothills Children's Wellness Network

for sponsoring the work of this amazing cookbook. The Our Time Together Cookbook Working Group spent over a year designing, researching and organizing this cookbook but without the contributions of recipes from our community it would not have happened!

We all believe passionately in the power of family meals and cooking in building relationships, growing strong and healthy children and connecting with our community. The Foothills Children's Wellness Network believes in these same things. Their vision: It Takes Everyone to Raise A Happy, Healthy Child has been a driving force behind the idea of the Our Time Together Cookbook.
