

# RISK & MATERIALS MANAGEMENT

December 2024

## WELCOME TO OUR FLOURISHING LEARNING COMMUNITY!

At FSD, we think about the whole system to make sure our mission, vision, and purpose are visible in every decision we make. This systems-thinking approach is key to achieving the goals set out within our divisional and school education plans. By frequently reflecting on our progress, we are demonstrating accountability and providing our partners in education the assurance that education is at the centre of a flourishing community.

## SUCCESS

- A successful risk management plan requires us to:
- Identify
- Assess
- Treat
- Monitor

## SUPPORT

- FSD staff asked for dedicated time for training
- August Operation Days were provided
- Many staff members utilized this time to complete OHS training

## ENGAGEMENT

- By engaging staff in site inspections we are able to increase staff engagement in the safety program
- 80% of schools participated and provided feedback

# Know Your Rights

Right to refuse dangerous work

Right to know about workplace hazards

## A Matter of Health and Safety

By including staff in our hazard assessments and site inspections we:

- Give staff a voice
- Gain insight into the work being done
- Highlight the importance of OHS
- Allow schools to work as a team through the safety lens

## What's Next?

Now that we have the information what do we do with it?

- Assess the reports
- Provide feedback to the schools
- Implement new safety measures where needed
- Continue to monitor the impacts to staff and student safety

## ABOUT US

### RISK & MATERIALS MANAGEMENT

High River, Alberta

Dave Barton, Manager of Risk & Materials
