

# Big Rock Jr. Kindergarten

## Our Program Goals:

- ▶ Promote strong social skills
- ▶ Encourage self-sufficiency and problem solving skills
- ▶ Empower children to explore and develop their creativity
- ▶ Build physical skills
- ▶ Provide exposure to literacy, numeracy and science
- ▶ Help child to learn direction following and good listening skills

Our early learning program is child-centred with a play-based philosophy. The early learning educators offer developmentally appropriate play experiences that are FUN, EXCITING and HANDS ON. These experiences actively engage children to LEARN, EXPLORE, EXPERIMENT and INVESTIGATE.

We recognize the importance of instilling a sense of excitement for school and learning at this age. Our program strives to create, for every child, a solid foundation for future learning.

We provide a warm, nurturing and friendly environment that supports and challenges the intellectual, social, physical and emotional growth of children.

With our knowledge of multiple intelligences and learning styles, we aim to recognize and nurture each child's abilities and emerging strengths.

## Activities at Preschool:

Arts & Crafts  
Music  
Movement  
Story Time  
Phys. Ed  
Library  
Literacy  
Numeracy  
Science  
Field Trips
