Did You Know?

The Mission Thrift Store In Okotoks has donated over \$400 in supplies to our Learning Commons and Maker Space this school year and has committed to partnering with us as we continue to collect items to enhance the learning of our Millarville students!

MAKER SPACE

Our learning commons is fully stocked and ready to launch our new MAKER SPACE. In the Maker Space we will be doing hands on learning with a focus on construction, technology & design, engineering, as well as discovering, through creation, components of the oil & gas industry and service trades including hair stylists, barbers, bakers and cooks. We are collecting the following items to use in our Maker Space:

Toilet paper rolls **Duct tape**
water bottle caps **Screwdrivers**
plastic straws **nails & screws**

Items can be dropped off in the Learning Commons on the Maker Space Table.
